

# ADVANCED SHRED!

a division of ...  
Nor-Cal Merchant Services, LLC  
since 1993

## PROFESSIONAL DOCUMENT & DATA DESTRUCTION

### OVERVIEW

**Advanced Shred!** Professional Document & Data Destruction is a regional leader in the Professional Document Destruction industry. Serving the Great Sacramento Metro markets + the Bay Area markets; **Advanced Shred!**, utilizing high powered pulverization equipment provides a truly secure and cost effective alternative to other methods and sources of shredding. Founded to assist small and medium size companies with their Privacy Risk, **Advanced Shred!** has also served Federal, State and City agencies across our region.

Our approach prioritizes... **Security Environment Service.**

**Security.** Our standard for document destruction is simple; shred size does matter and smaller is better. In addition to a small shred, our destruction process thoroughly mixes large amounts of document material together, intermingling many thousands of paper pieces. Utilizing a large Industrial Grinder system; shearing, tearing & crushing actions perform the pulverization. Unlike common "strip cut" or "pierce & tear" machines, the Grinder's integral security screen verifies fragment size and only passes material that meets our exacting standards for size reduction.

**Environment.** We endeavor to recycle all eligible materials.

**Service.** We want to be your company's best vendor. To meet this goal we offer flexible scheduling, a choice of

secure collection containers and aggressive pricing plans. **Contact us** today to find how a **Professional Document Destruction** program can reduce your company's Privacy Risk, help the environment and assist with demonstrating that your company is in compliance with the many laws requiring destruction of unneeded business files.

### Computer Hard Drive Destruction

**Don't ignore the source of all your documents, communications ++... your Computer, PDA, and external storage devices. Destruction service for all types of "e-Waste" which will protect your Company secrets & Personal Privacy.**
